Subject: Pelosi Spokesperson Statement on the Hunters Point Naval Shipyard Parcel A Survey Update

"Leader Pelosi is deeply concerned to hear of the recent discovery of a Navy deck marker on Parcel A in Hunters Point," **said Taylor Griffin, a spokesperson for the Leader.** "While CDPH is confident that this discovery does not pose a risk to the community, it should have been discovered before the land transfer and never should have been left behind. This discovery underlines the importance of the rescanning of Parcel A that Leader Pelosi called for in May. Going forward, CDPH must finish its full scan of Parcel A. We will continue to press for total transparency to guarantee the health and safety of the entire Bayview-Hunters Point community, and ensure they are fully briefed as this development moves forward."

ON BACKGROUND:

In addition to the to the \$36 million she secured for the shipyard cleanup in FY18, Leader Pelosi recently secured a \$60 million increase nationally in the FY19 Military Construction-Veteran Affairs Appropriations bill to fund the retesting

ED_002217A_00000347-00001

process for former Navy installation cleanup funds, of which Hunters Point is expected to secure a large portion of these federal funds. This funding is headed to the President's desk for approval, and the exact amount for Hunters Point cleanup will be determined within a month of it being signed into law.
